OCS

Newco designed the OCS Series for the office coffee service industry. The thermal carafe protects your coffee from heat while keeping your coffee hot and fresh for hours. The patented self-sealing, dual action brew through lid is an industry standard. The brewer uses a 1400 watt heating element for fast brewing up to ten pots per hour. UL rated for commercial use, ideal for hot tea or specialty coffee.

OCS-8

OCS-12

OCS-12A

- 40 ounce thermal server keeps coffee hot for hours
- Both automatic and pour-over models now available
- Attractive, space saving models to fit smaller locations
